The farmers of Walden's ridge have organize a Walden's ridge farmers' league for the benefit of getting together once a week and discussing and co-operating in the various modes of raising more cattle, hogs and vegetables. The league meets every Wednesday night at the Fairmount schoolhouse, and every farmer of that section is urged to be present and give his views and his ideas about the best way to do better and more propressive farming. T. W. Stanfield addressed the first meeting, outlining the

At the first meeting Gus Friedburg was elected president, T. M. Kell vice-president and O. H. Medler secretary and treasury. At the first meeting the idea was advanced that all farmers allow their hogs to run loose and that each farmer protect his own property from them by fences. This idea, it is thought, will be the means of raising more and better hogs.

# HIGH PRESSURE NEWS of WORLD MARKETS NEW YORK EGG

STOCK DEALINGS

New York, March 5.—Firmness was imparted to today's early stock dealings by advances of 1 to 2 points in speculative issues such as Baldwin Locomotive, Mexican Petroleum, General Motors, Studebaker, Sumatra Tobacco, International Paper and American Writing Paper preferred. Standard shares were variable, United States Steel and shippings rising fractionally, while rails, notably transcontinentals, were lower by fractions to a point. Liberty bonds relaxed moderately.

moderately.

Trading was at a standstill in the final hour, further gains in specialties being balanced by a 7-point break in American Tobacco. The closing was firm. Liberty 3½s sold at 97.70 to 97.96, first 4s at 96.74 to 97 and second 4s at 96.06 to 96.30.

Trading languished during the noon hour, but advances, particularly in spe-cialties, were generally extended, Marked strength was shown by Industrial Alco-hol, General Motors, Utah Copper, oils, United Fruit and leading equipments. NEW YORK STOCK LIST.

## IS ADVANCING FIRMNESS GIVEN CORN EXCHANGE COTTON MARKET PRICES HARDEN AGAIN STRONG

Chicago, March 5.—Prospects of unsettled weather with snow gave firmness today to the corn market. After opening unchanged, with May \$1.27%, futures scored a slight general advance.

Oats were firmer, owing more to lack of offerings than to any great demand.

Provisions hardened as a result of liberal shipments. Weakness in the hog market was ignored.

The close was steady, a shade to %c net bigher for futures, with March \$1.27 and May \$1.27% \$61.27%.

New York, March 5.—The cotton market showed continued strength early today. The circulation of a few March notices caused some little irregularity, but scattering liquidation was soon absorbed, and after opening 2 points lower to 9 higher prices sold some 10 to 15 points above last night's closing figures before the end of the first hour. All deliveries made new high ground, with May selling at 31.94c and October at 20.47c. The continued strength and activity of the goods market was one of the most discussed factors on the advance, while the market was also influenced by bullish spot advices and the renewed buying by houses with Liverpool and domestic trade connections. There was some buying of the new crop believed to be for Japanese account.

May sold up to 32.03c before the end of the morning and October to 30.52c, with the general list showing net gains of 18 to 27 points. The volume of buying tapered off after the close of Liverpool, however, and prices turned a shade easier under realizing or selling for a reaction, with the market comparatively quiet around midday. The feature of the forenoon advance was the heavy buying by houses with Liverpool connections in both old and new crop mouths. The midday reactions of 8 or 10 points were followed by still higher prices during the early afternoon on a renewal of trade buying and covering. May sold up to 32.12c and October to 30.58c, or 22 to 30 points net higher.

NEW ORLEANS COTTON. New Orleans, March 5.—Continuance of drouthy conditions in Texas caused buy-ing of cotton here today and the market responded, rising 8 to 15 points in the first half-hour of trading. Favorable dry goods reports contributed to the steadiness.

At the best the morning prices were

15 to 18 points up. The market reacted under realizing, standing at noon 3 points off to 3 up.

Further improvement in the spot situation stiffened the market in the afternoon. At 1 o'clock prices were at a net advance of 20 to 27 points.

Political leaders confessed they were puzzled as to just what ef-fect the new factor in politics will have in determining the result in each of the districts. The total registration in the four districts is 172,061, of which 35,195 are women greatest interest campaign has centered in the fight in the Twenty-first district, nor-mally republican territory. # MARKET LOWER

Large Receipts Cause Another Slump—Strawberries May Advance Locally.

Prices of all commodities at the markethouse are firm and unchanged, with-out any tendency to changes of any kind. The egg market probably received more attention than anything else. A dealer who has shipped heavily of eggs to New York received a dispatch this morning to the effect that 32,000 cases had arrived in that city, and that market prices had taken another slump, coming down a cent on the dozen. Monday the price was 36 cents, but today only 35 cents is offered in the wholesale markets. They are 33 cents, wholesale, in the local market, and the small mar-gin between the two markets is not very tempting to those who have a supply. Some outside local dealers still sell their eggs at 40 cents per dozen.

It looks as though there was going to

be an advance soon in the price of strawberries, which are selling at 35 ents per quart. A dealer states that the last shipment he received from Florda cost more than previous shipments, indicating a probable shortage until another crop from that state appears. Fresh Tennessee river fish is appear-ing on the market in large quantities at 121/2 cents per pound.

Our tire service is a service of prevention. In other words, we aim to get your tire troubles before they get you.

We would like to have you drive up to our place once a week if possible, let us test your tires for proper inflation—see that your wheels are in alignment—and examine your tires for tread cuts, fabric breaks and stone bruises. We'll be glad, any time, to give you sound properties on tire care. pointers on tire care.

This kind of attention will steer you clear of tire annoyance, and

will mean a saving of money to you.
